APRESENTAÇÕES E VISÃO GERAL

INTRODUÇÃO

Wladimir Moyano Mejía
Senior DevOps Engineer
Oshyn Equador

- Equatoriano
- Engenheiro sênior de DevOps - Oshyn
- Entusiasta do Sitecore
- Especializado em automação, infraestrutura de nuvem, integração e processos de entrega e atualizações de versão.
- Mais de 9 anos de experiência em projetos de desenvolvimento web e devops.
- Fundador e líder do Sitecore User Group Latam <https://suglatam.com>.
- Apaixonado pela gastronomia mundial.

●●● Medium

The image features a solid blue background. A large, semi-transparent white circle is positioned on the right side, partially overlapping a diagonal line that divides the image from the top-left to the bottom-right. The text 'Funcionalidades básicas' is written in white, bold, sans-serif font in the lower-left quadrant.

**Funcionalidades
básicas**

- Criação, Gestão e Publicação de conteúdo

The screenshot displays the Adobe Experience Manager (AEM) user interface. At the top, there is a navigation bar with tabs: HOME, NAVIGATE, REVIEW, PUBLISH, VERSIONS, CONFIGURE, PRESENTATION, SECURITY, VIEW, and MY TOOLBAR. Below this is a toolbar with various actions: Save (Write), Edit (Edit), Insert (Sample Item (1 of 2), Insert from template (2 of 2)), Content Tagging (Tag item), Operations (Duplicate, Copy to, Move to, Delete), Rename (Rename, Display name), and Sorting (Up, Down, First, Last). A search bar is located below the toolbar. The left sidebar shows a tree view of the site structure: sitecore > Content > Thank You (contact), Oshyn, Forms, Layout, Media Library > Default Website > cover, sc_logo, Files, Images, Oshyn, System, System, and Templates. The main content area shows a selected item: 'Content - [content]' with the description 'Web site content.'. A yellow warning banner states: 'You cannot edit this item because it is protected. To unprotect the item, click Unprotect Item on the Configure tab or click Unprotect Item.' Below the banner is a 'Quick Info' section with the following details: Item ID: {0DE95AE4-41AB-4D01-9EB0-67441B7C2450}, Item name: content - Display Name: Content, Item path: /sitecore/content, Template: /sitecore/templates/System/Main section - {E3E2D58C-DF95-4230-ADC9-279924CECE84}, Created from: [unknown], and Item owner: [unknown].

Cloud DXP

Content Cloud

XM Cloud →

Create content, launch websites, and deliver stunning experiences all in the cloud.

Search →

Create best-in-class, engaging, and predictive search experiences across your content sources.

Content Hub →

Centralize, manage, and store digital assets while collaborating on content strategy, creation, and performance analytics.

Content Hub ONE →

Create, manage, and publish content and media with a lightweight, agile content management system for an omnichannel world.

Engagement Cloud

CDP →

Understand every user, build segments, explore data and uncover trends with real-time customer insights.

Personalize →

Personalize every customer interaction, orchestrate real-time next best actions, and optimize through testing.

Send →

Use Sitecore Send to create, automate, and manage your email campaigns.

Connect →

Connect your Sitecore products with other applications in your ecosystem to provide your users with end-to-end experiences.

Commerce Cloud

Discover →

Use Sitecore Discover to create and deliver best-in-class, highly engaging, predictive experiences tailored to your website users.

OrderCloud →

With Sitecore OrderCloud®, design your own commerce solution with an API-first, headless cloud platform for B2B, B2C, and B2X. OrderCloud powers custom eCommerce experiences, order management, and B2B marketplace applications.

Platform DXP

Experience Manager →

Create, manage, and publish content to your website.

Experience Platform →

Create, manage, and publish content to your website, with Sitecore Experience Manager (XM). Collect and search experience data with xConnect and the Experience Database (xDB).

Experience Commerce →

Customize your eCommerce solution through a flexible extensibility framework.

Managed Cloud →

Host your Sitecore Cloud deployments on Microsoft Azure.

DIPLOMAS E CERTIFICAÇÕES

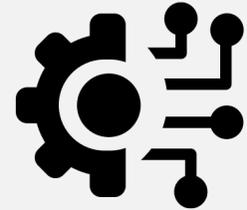

Most
Valuable
Professional

Sitecore Most Valuable Professional

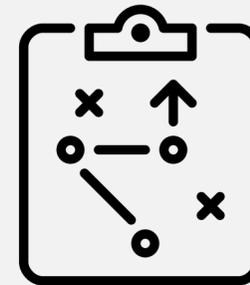

O Prêmio Sitecore MVP celebra os membros mais ativos da comunidade Sitecore de todo o mundo, que fornecem valiosos conhecimentos on-line e off-line que enriquecem a experiência da comunidade e fazem a diferença. Todos os anos, o Prêmio Sitecore Most Valuable Professional (MVP) reconhece pessoas com paixão por compartilhar seu conhecimento e experiência por meio da participação ativa em comunidades Sitecore on-line e off-line.

Technology

Uma pessoa com experiência técnica experiente que participa ativamente de comunidades on-line e off-line para compartilhar seu conhecimento e experiência com desenvolvedores, profissionais de marketing, estrategistas, parceiros e clientes da Sitecore.

Strategy

Uma pessoa com forte conhecimento de marketing contextual orientado por dados e uso da Sitecore Experience Cloud para gerar resultados comerciais e que goste de compartilhar seu conhecimento e experiência com clientes, usuários e equipes de implementação.

Ambassador

Um indivíduo com sólido conhecimento das mais recentes ofertas da Sitecore que agrega valor à Sitecore, influenciando parceiros, setor, clientes e tomadores de decisão e que fornece feedback sobre o produto, fornece referências e estudos de caso.
